USGS Interagency Agreement Activities Health & Safety Plan

J.M. Kersh, Associate General Manager
Environmental Restoration and Waste Management
EG&G Rocky Flats, Inc.

Under the Interagency Agreement with the U.S. Geological Survey (IA No. DE-AI34-91RF00012), the USGS will be conducting colloidal characterization studies at Rocky Flats. As noted in our September 6, 1991 memo (ERD:SG:6483), we requested that you assist in obtaining appropriate site access and work permits. In lieu of developing their own specific Health and Safety Plans for their short term access to Operable Unit 2 to collect water samples, it has been agreed that they will use the approved Operable Unit 2 Health & Safety Plan for their activities.

Please direct any questions to Scott Grace of my staff at extension 7199.

David P. Simonson
